## TRADE NOTICE

**Subject: Discontinuation of Garbage Removal Services for Empty Containers – Update to Trade Notice No. 37 dated 19th February 2018.**

This Trade Notice is issued as an update to our earlier Trade Notice No. 37 dated 19th February 2018 regarding the garbage removal services for empty containers at our premises.

As part of our operations, we have been providing garbage removal services as an add-on facility, on chargeable basis, to ensure that containers declared as *empty* by the shipping lines are indeed free from any cargo residue or waste before being loaded onto vessels. Over time, we have received several requests from various stakeholders to discontinue this service and, instead, return trailers that arrive with containers containing garbage or any unwanted material.

After due consideration, it has been decided that with effect from 15th December 2025, the garbage removal service currently provided at our premises will be discontinued. Consequently, any trailer arriving with a container declared as 'empty' but found to contain garbage or any material inside will be returned.

All members of the trade are hereby advised to ensure that containers being declared as *empty* are completely free from cargo residues, waste, or any other material prior to their arrival at our facility. Containers must meet the criteria of emptiness as declared by the respective shipping line.

This notice is issued basis the requests from trade and in the interest of operational efficiency and to maintain compliance
