

SECURITY POLICY

Chennai Container Terminal Pvt. Ltd recognizes that security is a critical function and is committed to embedding Security in the organizational culture, ensuring that a security mindset and security activities become a part of normal working practice. CCT has adopted a common approach to Security and Security management system, tailored to the requirements of the entire Group in line with ISO 28000. The policy provides information related to the underlying principles guiding the approach to security implementation.

Objectives:

The aim of this policy will be achieved by adhering to the following security policy objectives.

- Ensure compliance with all applicable local and international security regulatory and governmental requirements and/or initiatives.
- Identify and evaluate all security related risks within our supply chain and establish controls to communicate, respond, manage and reduce all quantified risks to an acceptable level utilizing proactive security risk assessment methods and security risk management programs.
- Monitor and support security projects that enhance the effective delivery of security by adopting innovative security technologies and best practices which will deliver protection of our employees, assets and other stakeholders.
- Continual improvement of security performance and process through regular audit and review of the security management system
- Promote security awareness with all stakeholders through internal and external education initiatives and communication programs to contribute effectively to the protection of CCT assets and business interests.
- Ensure CCT security incident management abilities for all foreseeable scenarios, at all levels through the development of appropriate plans and strategies to enhance security, resilience, and business continuity capabilities in line with DP World Strategy
